## How to Write an Email At Lightspeed

Here's how to write emails at lightspeed.

Go to Chat GPT:

<https://openai.com/blog/chatgpt/>

Type this in as a test:

*Write 300-word email on why using a.i. to write emails will as much as double your work speed*

## Here's the result I get back:

Dear colleagues,

I wanted to share with you my thoughts on the potential benefits of using artificial intelligence (AI) to write emails. As you may know, AI technology has advanced significantly in recent years and is now being used in various industries to automate tasks and improve efficiency.

One potential application of AI in the workplace is to use it to write emails. By using an AI system to draft and send emails, you can potentially double your work speed and productivity. Here are a few reasons why:

1. **Time savings:** Writing emails can be time-consuming, especially if you have a high volume of correspondence to handle. With AI, you can significantly reduce the time it takes to draft and send emails, freeing up more time for other tasks.
2. **Improved accuracy:** AI systems are designed to make fewer mistakes than humans, which can result in fewer errors and less time spent correcting mistakes. This can help improve the overall quality of your work.
3. **Personalization:** AI systems can analyze data and patterns to create personalized email content for your recipients. This can help increase the effectiveness of your emails and improve your relationships with clients and colleagues.
4. **Consistency:** AI can help ensure that your emails are consistent in tone and style, which can be especially helpful if you have multiple people writing emails on behalf of your organization.
5. **Increased efficiency:** By automating the email writing process, you can streamline your work and focus on more important tasks. This can lead to increased efficiency and productivity in the long run.

Overall, using AI to write emails has the potential to significantly improve your work speed and efficiency. While it's important to use caution and consider the ethical implications of using AI, the potential benefits make it worth exploring as a potential solution for your organization.

Best regards, [Your Name]

**Is that not FREAKING cool?**

**And with a little practice inputting good instructions, it's darned mind blowing.**

## How to Write a 7-Email Follow Up Series

I input this:

*Write a 7 day email sequence to sell a course on how to use A.I. to write emails, books for Amazon, Youtube scripts, Facebook ads, code and even full websites.*

Now, today it timed out on me.

Yesterday it completed the full 7 days.

Obviously this service is new and exploding. There will be some hiccups in terms of timing out, or even logging in.

It's absolutely amazing.

But a little understanding and patience is definitely in order.

If it times out on you, then just input each day of the email sequence separately.

But like I said, yesterday it wrote all 7 emails without a glitch.

On the first pass today, this is how far it got:

Write a 7 day email sequence to sell a course on how to use A.I. to write emails, books for Amazon, Youtube scripts, Facebook ads, code and even full websites.

Here is a possible 7-day email sequence to sell a course on using A.I. to write emails, books for Amazon, YouTube scripts, Facebook ads, code, and even full websites:

Day 1: Introduction

Subject: "Discover the Power of A.I. Writing"

Hi [Name],

Do you want to save time and effort in your writing tasks? Have you ever wished you had a virtual assistant that could handle some of the work for you?

If you answered yes to either of these questions, then I have some exciting news for you. I'm offering a course that teaches you how to use artificial intelligence (A.I.) to write emails, books for Amazon, YouTube scripts, Facebook ads, code, and even full websites.

This course is perfect for anyone who wants to streamline their writing process and save time on tasks like research, editing, and proofreading. Plus, it's a great way to learn about the latest technologies in the field of A.I. and how they can be applied to your work.

Keep an eye out for my next email, where I'll give you more details on what you'll learn in the course and how it can benefit you.

Sincerely, [Your Name]

Day 2: Benefits of the Course

Subject: "The Top Benefits of Using A.I. for Writing"

Hi [Name],

In my last email, I introduced you to my course on using A.I. for writing. In today's email, I want to share with you some of the top benefits of taking this course.

1. **Save time:** With A.I., you can automate many of the tedious tasks associated with writing, such as research and editing. This means you can focus on the creative aspects of your work, rather than spending hours on administrative tasks.
2. **Improve accuracy:** A.I. tools can help you catch spelling and grammar errors that you might miss when editing your own work. This can help you produce higher-quality content that is more likely to be accepted or published.
3. **Stay up to date:** The field of A.I. is constantly evolving, and this course will teach you about the latest technologies and techniques for using A.I. in your writing. This will help you stay ahead of the curve and be more competitive in your field.
4. **Enhance creativity:** A.I. can help you generate ideas for your writing and even write entire passages for you. This can free up your creativity and allow you to come up with fresh, new ideas that you might not have thought of on your own.

I hope this gives you a better idea of what you can expect to gain from taking this course. In my next email, I'll tell you more about the course structure and what you'll learn in each lesson.

Sincerely, [Your Name]

Day 3: Course Structure and Syllabus

Subject: "A Closer Look at the Course Syllabus"

Hi [Name],

In my last email, I talked about the benefits of using A.I. for writing. Today, I want to give you a closer look at the course structure and syllabus.

Here's a brief overview of what you'll learn in each lesson:

#### Lesson 1: Introduction to A.I. Writing

- In this lesson, you'll learn about the different types of A.I. tools available for writing and how they work.

#### Lesson 2: Setting Up Your A.I. Writing Environment

- In this lesson, you'll learn how to set up your computer

You can see that's pretty darned good.

I just put the request in again. This time it's going much faster. It made it through day 5:

Day 1:

Subject: Discover the power of A.I. to revolutionize your writing

Hi there,

Do you ever feel like you're spending too much time on writing tasks like crafting emails, creating social media ads, or writing books for Amazon? What if I told you that there's a way to streamline your writing process and produce even better results using the power of artificial intelligence?

In our course on how to use A.I. to write emails, books, and more, you'll learn how to harness the latest A.I. technologies to save time and improve the quality of your writing. From generating email subject lines to crafting compelling Facebook ads, our course will teach you the skills you need to take your writing to the next level.

Don't miss out on this opportunity to transform your writing process and achieve better results. Sign up for our course today!

Best, [Your Name]

Day 2:

Subject: How A.I. can help you write faster and more effectively

Hi there,

Are you tired of spending hours on writing tasks that could be done in a fraction of the time? With the help of artificial intelligence, you can streamline your writing process and get more done in less time.

In our course on how to use A.I. to write emails, books, and more, you'll learn how to leverage A.I. tools to generate ideas, create outlines, and even write entire pieces of content. Whether you're working on an email campaign, a book for Amazon, or a set of social media ads, our course will show you how to use A.I. to make your writing more efficient and effective.

Don't miss out on this opportunity to revolutionize your writing process. Sign up for our course today and discover the power of A.I. to transform your writing.

Best, [Your Name]

Day 3:

Subject: The benefits of using A.I. for your writing

Hi there,

Did you know that using artificial intelligence for your writing can actually improve the quality of your work? A.I. tools can help you generate ideas, find the right words, and even identify errors and areas for improvement in your writing.

In our course on how to use A.I. to write emails, books, and more, you'll learn how to take advantage of these powerful tools to produce better results. Whether you're writing emails, social media ads, or full-length books, our course will teach you how to use A.I. to elevate your writing to the next level.

Sign up for our course today and discover the benefits of using A.I. for your writing.

Best, [Your Name]

Day 4:

Subject: A.I. writing tools that you can use today

Hi there,

Are you ready to start using artificial intelligence to improve your writing? In our course on how to use A.I. to write emails, books, and more, you'll learn about the latest A.I. writing tools that you can use right now to streamline your writing process and produce better results.

From grammar checkers to content generators, there are A.I. tools available for every stage of the writing process. Our course will teach you how to use these tools to save time and improve the quality of your writing.

Don't wait any longer to start using A.I. to revolutionize your writing. Sign up for our course today and discover the power of these powerful tools.

Best, [Your Name]

## Does The Writing Pass The Copyscape Plagiarism Test?

I uploaded the above to a web page and then ran a Copyscape test on it:

## How to Generate a Table of Contents For a Book

*Generate a table of contents for a book on how to use Chat GPT to write your copy for you and save you time and money*

Here is a suggested table of contents for a book on how to use Chat GPT to write your copy:

### 1. Introduction to Chat GPT

- What is Chat GPT and how does it work?

- Benefits of using Chat GPT for copywriting
  - How to set up Chat GPT and get started
- 2. Using Chat GPT for basic copywriting tasks**
- Generating headlines and titles
  - Writing product descriptions and marketing copy
  - Crafting emails and social media posts
  - Creating website content and blog posts
- 3. Advanced techniques for using Chat GPT**
- Customizing the language and tone of your copy
  - Incorporating SEO keywords and strategies
  - Integrating Chat GPT with other tools and software
  - Collaborating with a team on copywriting projects
4. Best practices for using Chat GPT
- Tips for getting the most out of Chat GPT
  - Avoiding common pitfalls and mistakes
  - Ensuring the quality and authenticity of your copy
- 5. Case studies and real-world examples**
- Success stories from businesses and individuals who have used Chat GPT for copywriting
  - Ideas and inspiration for your own projects
- 6. Conclusion and next steps**
- Recap of the benefits of using Chat GPT for copywriting
  - Ideas for future development and improvement of Chat GPT
  - How to continue learning and staying up-to-date on the latest features and techniques.

## **How to Write The Book Chapter**

I asked it to write chapter number 2 in 2,000 words.

This is my input:

*Write a 2000 word book chapter with the title: Using Chat GPT for basic copywriting tasks*

## Here's the OUTPUT:

### Using Chat GPT for basic copywriting tasks

#### Introduction:

If you're a business owner, marketing professional, or content creator, you know how time-consuming and challenging it can be to come up with fresh, compelling copy. Whether you're writing product descriptions, crafting emails, or creating social media posts, finding the right words to capture your audience's attention and convey your message can be a daunting task. This is where Chat GPT can help.

#### What is Chat GPT and how does it work?

Chat GPT (short for "Generative Pre-trained Transformer") is a state-of-the-art natural language processing tool developed by OpenAI. It's designed to generate human-like text by using machine learning algorithms to analyze and mimic the patterns and styles of human writing.

To use Chat GPT, you simply provide it with a prompt or topic, and it will generate text based on that input. For example, if you're writing a product description and you want to highlight the features and benefits of your product, you can provide Chat GPT with a list of those features and it will generate a description that incorporates them in a natural, engaging way.

#### Benefits of using Chat GPT for basic copywriting tasks:

There are several benefits to using Chat GPT for basic copywriting tasks:

1. **Save time:** With Chat GPT, you can generate copy quickly and efficiently, freeing up more of your time to focus on other important tasks.
2. **Improve consistency:** Chat GPT can help you maintain a consistent tone and style across all of your copy, ensuring that your messaging is consistent and on-brand.
3. **Generate ideas:** If you're struggling to come up with ideas for your copy, Chat GPT can help spark your creativity and provide new angles and approaches to consider.
4. **Enhance creativity:** While Chat GPT can't replace the creative process entirely, it can provide inspiration and a starting point for you to build upon and customize to your own voice and style.

### Using Chat GPT for basic copywriting tasks:

Now that you have a better understanding of what Chat GPT is and how it works, let's dive into some specific ways you can use it to help with your basic copywriting tasks.

Generating headlines and titles:

Headlines and titles are crucial for grabbing your audience's attention and setting the tone for your content. Chat GPT can help you generate headlines and titles that are catchy, compelling, and on-topic.

To use Chat GPT for headline generation, you can provide it with a list of keywords or themes related to your content and ask it to generate a list of headlines based on those inputs. For example, if you're writing a blog post about social media marketing, you might provide Chat GPT with keywords like "social media," "marketing," "strategy," and "tips," and it could generate headlines like "10 Social Media Marketing Strategies to Boost Your Business" or "5 Expert Tips for Crafting a Winning Social Media Marketing Plan."

Writing product descriptions and marketing copy:

Product descriptions and marketing copy are crucial for convincing your audience to take action, whether that's making a purchase or signing up for a newsletter. Chat GPT can help you craft product descriptions and marketing copy that are clear, concise, and persuasive.

To use Chat GPT for product descriptions and marketing copy, you can provide it with a list of features and benefits to highlight, as well as any specific messaging or branding guidelines you want it to incorporate. For example, if you're writing a product description for a new e-book, you might provide Chat GPT

**This came out to 583 words. So I re-did it but put a comma in 2,000 words to see if that made it clearer.**

**This time it came out to 591 words.**

**I wonder if there's currently a word limit? Not sure. Still, it's very cool.**

Using Chat GPT for basic copywriting tasks

Writing effective copy is an essential skill for any business or individual looking to communicate with their audience and promote their products or services. Whether

you're crafting marketing materials, social media posts, emails, or website content, the right words can make all the difference in engaging and persuading your readers.

However, coming up with fresh and compelling copy on a regular basis can be time-consuming and challenging, especially if you're working on multiple projects at once. That's where Chat GPT comes in.

Chat GPT (short for "Conversational Generative Pretrained Transformer") is a language generation model developed by OpenAI that uses artificial intelligence to generate human-like text. By feeding Chat GPT a prompt or series of prompts, you can generate ideas, phrases, and entire paragraphs of copy on a variety of topics.

Here are some examples of how you can use Chat GPT for basic copywriting tasks:

## 1. Generating headlines and titles

Headlines and titles are often the first thing that readers see, and they play a crucial role in capturing attention and setting the tone for the rest of your content. Chat GPT can help you come up with creative and compelling headlines and titles for your blog posts, articles, emails, and more.

To generate headlines with Chat GPT, you can provide it with a brief description of the topic or content you're working on, along with any specific requirements or constraints. For example, you might ask Chat GPT to generate a list of 10 headlines for a blog post on healthy living, with each headline containing a specific keyword or phrase.

Here are a few examples of headlines that Chat GPT might generate based on this prompt:

- "10 Simple Habits for a Healthier Lifestyle"
  - "The Surprising Benefits of Walking for Your Health"
  - "Eating for Energy: 5 Foods to Boost Your Metabolism"
- ## 2. Writing product descriptions and marketing copy

Product descriptions and marketing copy are important for promoting and selling your products or services. Chat GPT can help you write clear, concise, and persuasive descriptions that highlight the features and benefits of what you're offering.

To generate product descriptions with Chat GPT, you can provide it with information about the product, including its features, target audience, and any unique selling points. You can also include any specific language or tone that you want to use.

For example, if you're selling a new line of organic skincare products, you might ask Chat GPT to generate a description that emphasizes the natural ingredients, cruelty-free testing, and environmental sustainability of the products. Here's an example of a product description that Chat GPT might generate based on this prompt:

"Our organic skincare line is made with only the finest natural ingredients, sourced from small farms and trusted suppliers. We never test on animals and are committed to sustainability, using recycled materials and eco-friendly packaging. Our products are gentle on your skin and the environment, giving you a healthy, radiant glow without any harsh chemicals or synthetic fragrances."

### 3. Crafting emails and social media posts

Emails and social media posts are an important part of any marketing strategy, and they require clear, concise, and engaging language to get your message across. Chat GPT can help you write emails and social media posts that are targeted, relevant, and persuasive.

To generate emails and social media posts with Chat GPT, you can provide it with information about your audience, the purpose of the message, and any specific language or tone you want to use. For example, if you're writing a social media post to

A 50-page book has 22,500 words.

A 100-page book has 45,000 words.

So if we take 22,500 / 590 words per attempt, that's 38 shots.

You could have 38 chapters.

Or Do 2 or 3 runs for each chapter.

Or do a little more research and see if there's a way to increase the length of the output by having a better input. There probably is.

### **Ways to Use Chat GPT To Make More Profits In Your Business**

This is what I input:

*Generate ideas on how to use chat gpt to make more profits in your business*

And here's the output of 404 words:

Here are a few ideas on how you can use Chat GPT to increase profits in your business:

1. **Generate more targeted and effective marketing copy:**

Chat GPT can help you write marketing materials that are more targeted and relevant to your audience, increasing the chances that your campaigns will be successful. By providing Chat GPT with information about your products, target audience, and any specific language or tone you want to use, you can generate copy that is tailored to your needs and goals.

2. **Increase efficiency and productivity:**

Chat GPT can save you time and effort by automating tasks such as writing product descriptions, crafting emails and social media posts, and generating website content. This can free up more time for you to focus on other areas of your business, such as sales, customer service, and strategy.

3. **Test different marketing approaches:**

Chat GPT can help you test different marketing approaches and strategies by generating multiple versions of copy for a single campaign. For example, you can use Chat GPT to generate several versions of an email subject line and compare their performance to see which one gets the highest open rate. This can help you optimize your marketing efforts and increase your ROI.

4. **Personalize customer communications:**

Chat GPT can help you personalize your customer communications by generating personalized emails and social media posts based on customer data. For example, you can use Chat GPT to generate personalized emails to customers who have abandoned their shopping carts, reminding them of the items they left behind and offering a discount to encourage them to complete their purchase. Personalized communications can increase customer engagement and loyalty, leading to increased profits.

5. **Optimize SEO and content marketing:**

Chat GPT can help you optimize your content for SEO by generating copy that includes targeted keywords and phrases. By providing Chat GPT with information about your target audience and industry, you can generate content that is more likely to rank well in search engines, attracting more traffic to your website and increasing your visibility.

online.

#### 6. **Generate new product ideas:**

Chat GPT can help you generate ideas for new products or services based on customer feedback, market trends, and industry insights. By providing Chat GPT with information about your business and target audience, you can generate a list of potential product ideas that are tailored to your customers' needs and interests, increasing the chances that they will be successful in the market.

Alright, this should get you up to speed on HOW to use Chat GPT in your business.

Best wishes,

Marlon

### **The Fail Safe System (intermediate to advanced)**

This zeroes in only on the Info Product Business. On Zoo and W+ you can buy a lot of beginner courses and possibly a few “intermediate” info product marketing courses or training. But you won’t find advanced training.

There really is almost no advanced training on the Info Product Business other than the Fail Safe System. It’s advanced information, although not as sweeping and comprehensive as the Amazing Formula Full-Blown Course above. The price reflects that but is considerably more than you’d pay for an introductory or intermediate course on info products. [Click here to see it.](#)

### **How to Create High Profit Info Products**

This is my info product creation training for BEGINNERS.

There’s not a lot of “new” methods in it like my intermediate and advanced courses above. But it’s 100+ pages of solid, step-by-step information, albeit

not with the numbered steps and screen caps in Product Dashboard. Recommended for newbies and beginners. [See it here.](#)

### **Take The Lid Off Your Income**

Just a fantastic, in-depth 4-module course I put a lot of time, care and attention into creating for you. If you're ready to create your own products and get traffic, THIS is what you need to get. [See it here.](#)

### **The Long Lost Viral Marketing Ebook Treasure of Jimmy D. Brown**

This is the best and most definitive ebook ever written on the topic. It's a long lost treasure now made available with special permission from Jimmy D. [Click here to see this bad boy.](#) Highly recommended.

### **Feel Overwhelmed?**

Buyers love this product. It's fresh, new insights into how to overcome overwhelm and get focused and productive. There is no other course like this. [If you feel overwhelmed, click here for the solution](#)  
[If you feel overwhelmed, click here for the solution](#)

## The Road Not Taken

Two roads diverged in a yellow wood,  
And sorry I could not travel both  
And be one traveler, long I stood  
And looked down one as far as I could  
To where it bent in the undergrowth;

Then took the other, as just as fair,  
And having perhaps the better claim  
Because it was grassy and wanted wear,  
Though as for that the passing there  
Had worn them really about the same,

And both that morning equally lay  
In leaves no step had trodden black.  
Oh, I marked the first for another day!  
Yet knowing how way leads on to way  
I doubted if I should ever come back.

I shall be telling this with a sigh  
Somewhere ages and ages hence:  
Two roads diverged in a wood, and I,  
I took the one less traveled by,  
And that has made all the difference
